PROFESSIONAL SUMMARY

Motivated and detail-oriented Artificial Intelligence and Machine Learning Engineer with strong proficiency in Python, data analysis, and machine learning fundamentals. Currently pursuing a Bachelor of Engineering in Computer Science and Engineering with hands-on experience in NumPy, Pandas, SQL, and data visualization. Eager to apply technical skills to build scalable, data-driven solutions.

INTERNSHIPS & PROJECT EXPERIENCE

Project Intern

Emglitz Technology, Coimbatore

June 2025 – July 2025

- AI Object Detection System: Built an AI-based system to detect and classify objects from images and videos using Python and computer vision techniques.
- Peer-to-Peer Student Book Exchange Website (MERN Stack): Developed a full-stack platform for buying, selling, and exchanging books using React, Node.js, Express, and MongoDB.

Tech Vedhu, Bengaluru

July 2026 – Aug 2026

- Designed a content-based movie recommendation system that suggests movies based on user preferences using similarity algorithms.
- Developed a Machine Learning model to predict student academic performance using classification algorithms. Performed data preprocessing, feature engineering, model training, evaluation, and visualization.

TECHNICAL SKILLS

- Programming Languages: Python, SQL, JavaScript
- AI & Machine Learning: Supervised & Unsupervised Learning, Model Development, Evaluation
- Data Analysis & Visualization: NumPy, Pandas, Matplotlib, Seaborn
- Web Technologies: HTML5, CSS3, JavaScript
- Version Control: Git, GitHub
- Core Data Skills: Data Cleaning, Preprocessing, Exploratory Data Analysis (EDA)

CORE SKILLS

- Data Analysis & Reporting
- Presentation & Communication
- Problem Solving
- Analytical Thinking
- Team Collaboration
- Time Management
- Quick Learner

EDUCATION

Bachelor of Engineering (BE)

Specialization: Computer Science and Engineering |
CGPA: 7.98
